## Declaration of Conformity with Directive 2011/65/EU (RoHS)

Karben, 07.05.2024

We herewith confirm that the parts and components supplied by TBi Industries GmbH for electrical and electronic equipment are in accordance with the Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) in its valid version.

Our company is acting worldwide, and we consider the protection of the environment and the conservation of the natural resources as our corporate responsibility. Not least in this context, TBi Industries GmbH comply with the environmental management standard DIN ISO 14001 as well as further standards as DIN ISO 9001 and OHSAS 18001.

According to Annex III, No. 6 of the RoHS Directive

6.a	Steel alloys may contain up to	0.35%
6.b	Aluminium alloys may contain up to	0.4%
6.c	Copper alloys may contain up to	4% of lead.

Our products meet these requirements without exception.

Kind regards,  
TBi Industries GmbH

Tamer Cansiz  
Managing Director
